PREFACE

This completes the printing of approximately 1000 additional SHELDON Families and their CONNECTIONS which the Rev. Henry O. SHELDON had written into his personal copy of his four original pamphlets between 1857 and 1882. These notations were between the printed lines in their appropriate places or on pages numbered 141 through 158r, in his handwriting and followed the same form used in his other folios.

What happened to pages 122 through 140r still remains a mystery. They were probably misplaced during the over 70 years the other folios were in Alaska, then in Jamestown and finally Medina, New York. They were found here in 1955 by the Chairman of the Genealogical Committee of the SHELDON FAMILY ASSOCIATION.

We have included some Heads of Families listed by H. O. SHELDON which show no children. He evidently expected to hear from these Heads of Family but they never made the necessary returns. We have also printed them hoping that in time, these names will come into our hands, to be recorded in our permanent files.

Included also, down to the 7th. or 8th generation, those families only mentioned in Vol. I who were original subscribers to our series of "Reprints"

As is usual in genealogies of this nature, there will be errors. When you note one, please write us giving the correction with your authority for the change. The correction will be made in the permanent records with apologies to you for our mistakes in recording.

Thank You,

S#6770x4-1 Leland Locke Sheldon

James Rhodes SHELDON removed to Georgia in 1858, enlisted in the Confederate Army in 1862. Was a Major when captured at Sailor Creek near Richmond Virginia in 1865. After the war he became a successful Cotton Broker in Savannah. He was a pioneer in the promotion and use of chemical fertilizers in the south. A prominent industrial and real estate operator, he was throughout his life, interested in the community affairs of his adopted city.

SHELDON FAMILY DATA CARDS In order to make it easy for Sheldon families to record their data in a uniform manner so that it can be easily read and filed, it should be written on 3"x3" cards. The fac-similes shown below and on page 10 of the index afford space to record 22 important items of genealogical data on each "Head of Family" card and 15 items on every child listed on each "Children's" card. Record exactly, the items indicated, no more, no less. Biographical notes should be recorded on the reverse side of the cards or on separate sheets. The three different types will be furnished, no charge, in duplicate with the understanding one set be returned for our permanent records. Request the number required of each type. If addresses of members of the Genealogical Committee not known, see back cover of this volume.
